

The Weather Tree

WEATHER CALENDAR

This weather tree allows us to see the weather in a place throughout the months of the year. All you have to do is paint the corresponding leaf day by day in the colour corresponding to the weather observed. If different phenomena are observed on a given day, the leaf can be painted two-coloured, three-coloured...

From Meteo-School we suggest that you paint it.

- | | | |
|-----------------|---|-------------|
| Hot |  | orange |
| Windy |  | red |
| Fog |  | yellow |
| Cloudy |  | grey |
| Rain |  | dark green |
| Snow |  | light green |
| Storm/hail |  | black |
| Cold |  | dark blue |
| Frost |  | light blue |
| Not significant |  | white |
